

Dear Devotees,

My name is Ashok Komarla. I have been practicing medicine in Tampa Bay for many years. I have provided free medical care for many students from local University and many others over the years. I have also provided medical care in several health camps conducted by the temple and other organizations.

We have been in this community 40 years and raised our family in Tampa. Our children and grandchildren attend the temple with us regularly. I have been involved in the growth of our Hindu Temple of Florida from the very beginning. My family and I have been volunteering and serving the temple in many capacities. I served as a Trustee and was in the executive committee and other committees in the past.

I want to work to make sure that our future generations value and practice our culture and customs. I am running for the Trustee position². I appreciate your vote .

Sincerely,

Ashok Komarla
