

I am Karpagam (Raji)Ramesh , volunteering during Dr. Keshavs time and was chairing the position during Srinivas G period . I learnt a lot from both these leaders and they guided with ease and togetherness. I learnt the essence of how a team works together with varied cultures and languages from these two men. If today I am more confident of whom I am in temple administration in US ,it is because of these two leaders .

I am a trustee for the fiscal year and not to forget first a devotee Hailing from families volunteering in temple administration and having a balance of brahmin culture and family of dharmapurathinam, which is rare combination and also know the various Hindu religious practices .

I am living in Tampa for more than 20+ years , having married to Mr. Ramesh Sivalogam and blessed with two children who are born and growing up in US _ Shivani and Aditya, not much to be told of my children as they are in the threshold of adulthood.

do not want name or fame but just want to see HIS abode safe being welcomed, Organized and families happy, priests doing their priestly jobs darshan and volunteering being given for the very many devotees.

This will be my prime glorification and Samarpanam to Padmavathyamma and Shaktimata 🙏🌹

Thank you
