

Dr. Sandhya Boyapalle

I am an accomplished professional, graduated from the College of Veterinary Science, India, in 1997, and furthered my studies in the USA. I obtained an MS in Veterinary Pathobiology and a PhD in Microbiology from [Iowa State University](#) by 2005. With a strong background and expertise in immunology and infectious diseases, I have authored numerous peer-reviewed articles.

I hold pivotal roles in various ventures, notably as the Founder and CEO of Affordable Pet Hospital, [North Tampa Pet Hospital](#), and Pet Depot in Tampa, established in 2007 and 2014. Additionally, I serve as President for sales, resources, and services at Saibervet, SaiberMD, and SaiberDent, leading virtual assistant companies.

Being the Co-founder and a board member, I am actively involved in contributing to the Hermione Duncan Reddy Foundation. My love for animals extends my role as Co-founder and President of Seven Oaks Pet Hospital, Hyderabad, India.

I have been a patron trustee at the Hindu temple of Florida, Tampa since 2017. I have participated enthusiastically in all the trustee meetings in brainstorming several issues. I am wanting to contest in the Board of Trustee elections held in May 2024. We as a family are religious and have been life members of the Hindu temple of Florida since we moved to Tampa in the year 2006. We actively participate in all the temple activities Brahmastavams, Mahakumbhabhishekam and have been supporting annual fund raisers regularly since several years. I volunteer in several temple events as well whenever I can. Temple is very close to my heart and love to be involved more in the temple proceedings.
